# ÜberStrainer Set 2

**Order No.:**43-70000-98

## Description

The ÜberStrainer is more than a cell strainer - ÜberStrainer is a sterile Sample Preparation Device to separate, isolate, concentrate and process particle out of complex and/ or diluted suspensions. The air tight screw cap with a Luer Lock connector makes it possible to filtrate an unlimited amount of liquid. The strainer can be easily separated from the rest of the device, fits into a 50 ml tube and into the 20 mm tissue plate cavity.

This set includes 2 pieces of 1 µm, 5 µm, 10 µm, 30 µm, 60 µm.

## Additional Information

| | |
|---|---|
| Mesh Size | Multiple |
| Size | 10 pcs |
| Fabric material | PET (Polyethylenterephthalat) |
| Housing Material | PP (Polypropylene) |
| Mesh Type | woven |
| Sterility | Sterile |
| Shipping Condition | Room Temperature |
| Storage Condition | Room Temperature |
| Regulatory Statement | For research use only. Not for use in diagnostic procedures. |
