描述

pluriSpin® Human NK Cell Depletion is designed to isolate pure, viable and untouched nk cells-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels NK cells, while the isolated human nk cells-free population are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified nk cells-free population are present as a highly enriched population at the interface between the plasma and the density medium.

Additional Information

品种	人类
细胞类型	NK细胞
样品料	Whole Blood, PBMC, Buffy Coat, Cord Blood, Bone Marrow, Primary Cell Solution
纯度	>90%
储存条件	室温
规范性声明	For research use only. Not for use in diagnostic procedures,

Warning and Limitations

This product is for research and development only, not for diagnostic or theurapeutic use.
