

pluriSpin® Human T Cell Enrichment (10 ml)

Order No.:19-02001-32

Description

pluriSpin® Human T Cell Enrichment is designed to isolate pure, viable and untouched T cells from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels Monocytes, B cells, NK cells and granulocytes, while the negatively isolated human T cells are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified T cells are present as a highly enriched population at the interface between the plasma and the density medium.
