

pluriSpin

## pluriSpin® Human T Cell Depletion (10 ml)

## Description

pluriSpin® Human T Cell Depletion is designed to isolate pure, viable and untouched t cells-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels T cells, while the isolated human t cells-free population are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified t cells-free population are present as a highly enriched population at the interface between the plasma and the density medium.

## **Additional Information**
