

pluriSpin® Human CD4⁺ Cell Depletion (2 ml)

Order No.:19-03002-31

Description

pluriSpin® Human CD4⁺ Cell Depletion is designed to isolate pure, viable and untouched helper t cells-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels Helper T cells, while the isolated human helper t cells-free population are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified helper t cells-free population are present as a highly enriched population at the interface between the plasma and the density medium.

Informations complémentaires
