

## pluriSpin® Human T Cell Depletion (2 ml)

**Order No.:**19-02002-31

### Description

pluriSpin® Human T Cell Depletion is designed to isolate pure, viable and untouched t cells-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels T cells, while the isolated human t cells-free population are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified t cells-free population are present as a highly enriched population at the interface between the plasma and the density medium.

### Additional Information

|                      |   |
|----------------------|---|
| Size                 | 2 ml  |
| Delivery Time (days) | 1-2   |
| Species              | Human   |
| Cell Types           | T cells   |
| Sample Material      | Whole Blood, PBMC, Buffy Coat, Cord Blood, Bone Marrow, Primary Cell Solution |
| Purity               | >90%  |
| Storage Condition    | 4-8 °C  |
