

## pluriSpin® Human Monocyte Depletion (10 ml)

**Order No.:**19-01002-32

### Descrizione

pluriSpin® Human Monocyte Depletion is designed to isolate pure, viable and untouched monocytes-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels monocytes, while the isolated human monocytes-free population are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified monocytes-free population are present as a highly enriched population at the interface between the plasma and the density medium.
