

pluriSpin® Human T Cell Depletion (10 ml)

Order No.:19-02002-32

概要

pluriSpin® Human T Cell Depletion is designed to isolate pure, viable and untouched t cells-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels T cells, while the isolated human t cells-free population are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified t cells-free population are present as a highly enriched population at the interface between the plasma and the density medium.

Additional Information

大きさ	10 ml
しゅるい	人間
細胞型	T細胞
サンプル材料	Whole Blood, PBMC, Buffy Coat, Cord Blood, Bone Marrow, Primary Cell Solution
純潔	>90%
保管状態	4-8 °C
きせいぶん	For research use only. Not for use in diagnostic procedures,
