Hean		

## Description

pluriSpin® Human CD45+ Cell Depletion is designed to isolate pure, viable and untouched CD45+-free population from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels CD45+cells, while the isolated population free of CD45+ are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified CD45+ cells-free population are present as a highly enriched population at the interface between the plasma and the density medium.

## **Additional Information**

Species	Human	
Cell Types	CD45- Cell	
Storage Condition	Room Temperature	
Regulatory Statement	For research use only. Not for use in diagnostic procedures.,	

## **Warning and Limitations**

This product is for research and development only, not for diagnostic or theurapeutic use.
