

pluriSpin® Human CD4+ T Cell Enrichment (10 ml)

Order No.:19-03001-32

Description

pluriSpin® Human CD4+ T Cell Enrichment is designed to isolate pure, viable and untouched CD4+ T cells from whole blood, buffy coat, cord blood or similar sample material by negative isolation. The product labels Monocytes, cytotoxic T cells, B cells, NK cells and granulocytes, while the negatively isolated human CD4+ T cells are left in the sample. When centrifuged over a density medium the unwanted cells pellet along with the RBCs. The purified CD4+ T cells are present as a highly enriched population at the interface between the plasma and the density medium.

Additional Information

| Size | 10 ml |
|----------------------|--|
| Species | Human |
| Cell Types | Helper T cells |
| Sample Material | Whole Blood, PBMC, Buffy Coat, Cord Blood, Bone Marrow, Primary Cell Solution |
| Purity | >90% |
| Storage Condition | 4-8 °C |
| Regulatory Statement | For research use only. Not for use in diagnostic procedures, |

Warning and Limitations

This product is for research and development only, not for diagnostic or theurapeutic use.
